

DUNEDIN SCHOOL

Delivers unique education to individuals

Person Specification: Biology with Science teacher

Dunedin School is a unique place to work, and we are looking for someone who will bring a blend of skills, personal qualities and experience to our team, as well as a readiness to learn and adapt, and fully embrace the ethos of the school.

Below are the skills and qualities we feel are essential for the role, and those which are desirable:

Essential	Desirable
An understanding of a range of additional support needs, and how these might have an impact on the lives of young people	Willingness to contribute to and participate in extra-curricular activities
A strong sense of empathy and patience	Additional skills and interests which could support extra-curricular activities
Experience of delivering Biology to Higher level	Experience of teaching young people with additional support needs
Experience of teaching BGE Science	Experience of planning and preparing practical work, this may include placing orders and maintaining a lab
Flexibility and an ability to adapt	Experience of leading or contributing to health and wellbeing initiatives across the curriculum
Organised and able to manage own time and workload	Experience delivering additional Science courses such as Applied Sciences and Lab Skills
An ability to use initiative	
Willingness to contribute to whole-school development initiatives	
Willingness to collaborate and work as part of a team
